

PROJECT 05

# Give full expression of your love with a photo album cover of your very own design.

A photo album filled with precious memories and moments needs just the right cover. Give form to your feelings by fashioning the perfect cover that will convey your love on that far-off day when you look through the album with your grown-up child. Enjoy the moments you spend making a cover for memories to last a lifetime.

## Material

Outer dimensions: 13" x 13"

Paper – 12 kinds, fabric – 5 kinds

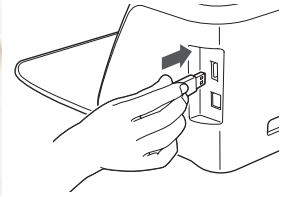

Bear: 9.06" x 7.62"; circular face piece: diameter 2.55"

Border ribbon: 1.33" x 11.26"

Text block: 4.33" x 5.18"

Fancy tape, photo, rings, glue, iron-on fabric appliqué contact sheet

Cut photo to appropriate size.

If you want to use the image from a hard-to-replace photo, use the Scan to USB function to copy the photo and save it as data. You can then print out and cut the saved photo data instead of the original photo.

Function: Scan to USB

1 Affix 12" album pattern paper to the cover of the photo album.

2 Attach an iron-on transfer adhesive sheet to the piece of felt to use for cutting the built-in pattern of a bear, and a sheet of the same type to the fabric to use for the cake (piece b).

3 When cutting the bear, overlay a built-in pattern of a circle on the face and cut out the circle. Then cut the outline of the bear.

Built-in patterns: AR-I042, BA-A045, AR-I030, LO-A020, AR-I039

4 Cut the cake and all other built-in patterns.

Built-in pattern: BO-A024

5 Attach all the cut pieces. Cut the photo so that it fits the cut-out face of the bear.

6 Attach fancy ribbons and cloth strips to the edges.
